*The Minaro Hotel Tokaj by MGallery provides a unique experience.
And by combining two different cultures, it invites you for a great adventure.*

A unique hotel for a remarkable travel experience.

The Minaro Hotel Tokaj by MGallery, a unique part of the UNESCO World Heritage Site in Tokaj, draws its inspiration from a former andesite mine. Its design is influenced by the mining environment, while the fine details are derived from an entirely different culture. Elements of the Mayan civilization lend a truly unique feel to the ambiance here. The hotel blends Tokaj's "liquid gold" appeal with an "El Dorado" theme reminiscent of a South American atmosphere.

The hotel's modern form harmonizes perfectly with the contemporary design and architecture of the pre-classical period. The interior space is dominated by minimalist andesite, complemented by designer accessories that fill the rooms with elements of nature. Welcoming guests with 100 rooms and a stunning view in the midst of the pristine Tokaj wine region, the hotel is a gem to discover. Uncover the hidden treasures of the fairy-tale Zemplén region!
